

Testcase Reviewer Flow:

Testcase Provided for Review:

TC_BT_005 Title: Verify OTP authentication for fund transfer Preconditions: User is logged in with an active account and has OTP enabled Steps: Navigate to Fund Transfer Enter beneficiary details Enter amount within daily limit Submit transaction and authenticate with OTP Expected Result: Transaction completes successfully and confirmation is shown

Additional Comments and Review Provided as Output:

✓ Finished in 1.4s

1. Issue: Missing precondition for OTP generation. Severity: High
2. Issue: Steps are not atomic; OTP authentication is a separate step that should be tested independently. Severity: Medium
3. Issue: Expected result does not specify what happens if OTP authentication fails. Severity: Medium

List of issues:

1. Missing precondition for OTP generation (High)
2. Steps are not atomic (Medium)
3. Expected result does not specify what happens if OTP authentication fails (Medium)

Suggestions for improvement:

1. Must fix: Add a precondition for OTP generation, such as "User has enabled OTP for fund transfer."
2. Must fix: Break down OTP authentication into a separate step, such as "Submit OTP for authentication."
3. Optional: Specify the expected result for OTP authentication failure, such as "Transaction fails and error message is shown."

Improved version of the test case:

Test Case ID: TC_BT_005 Title: Verify OTP authentication for fund transfer Preconditions: User is logged in with an active account, has OTP enabled for fund transfer, and has generated OTP. Steps:

1. Navigate to Fund Transfer
2. Enter beneficiary details

Improved version of the test case:

Test Case ID: TC_BT_005 Title: Verify OTP authentication for fund transfer Preconditions: User is logged in with an active account, has OTP enabled for fund transfer, and has generated OTP. Steps:

1. Navigate to Fund Transfer
2. Enter beneficiary details
3. Enter amount within daily limit
4. Submit transaction
5. Submit OTP for authentication Expected Result: Transaction completes successfully and confirmation is shown.
